Ages 11 – 14

DELTA GEMS
Ages 14 – 18

Applications will be available from September 19th to October 2nd

****Delta Academy* was created to enrich the lives of our young females ages 11-14 as they navigate the world. Our programming provides educational opportunities and life skills to combat the stigma of academic failure and low self-esteem all the while providing mentoring and insight into new career avenues.

The Delta Academy is designed for:

- Young women ages 11-14.
- Young women who have potential but need guidance, support and skills to achieve success.
- Young women who are interested in cultivating service learning.
- Young women looking toward the future with career and collegiate aspirations.
- Young women who need encouragement and support in pursuit of higher learning.
- Young women who are interested in developing their leadership skills.
- Young women who are interested in community action and social change.
- Young women who have an interest in non-traditional careers including those in math, science, engineering and technology.

Our implementation of the program includes monthly meetings, workshops, service projects, social events, and cultural activities.

****Delta GEMS* is a natural outgrowth and expansion of the highly successful "Dr. Betty Shabazz Delta Academy" created to "catch the dreams" of at-risk, adolescent girls aged 14-18 and in high school. Delta GEMS provides the framework to actualize those dreams through the performance of specific tasks that develop a "CAN DO" attitude.

Delta GEMS is geared toward inspiring and enriching young women. Delta GEMS will participate in public service projects, college preparatory workshops, bonding activities, a college tour and social outings.

The goals of the Delta GEMS Program are:

- To develop strong, confident and respectful young ladies and prepare them to take an active role in their success and society. To instill in girls the need to excel academically.
- To provide tools that will enable girls to sharpen and enhance their skills to achieve high levels of academic successes.
- To assist girls in proper goal setting and planning for their futures.
- To create compassionate, caring, and community minded young women by actively involving them in service learning and community service opportunities.
